INTRODUCTION & BACKGROUND

The United Nations Entity for Gender Equality and the Empowerment of Women (UN Women) strives to promote gender equality and women’s human rights, to strengthen implementation of gender sensitive policy and legislation, and to eliminate all forms of violence against women. The strategy in Pakistan encompasses strengthening the capacity of government, non-governmental organizations and UN system to deliver on Pakistan’s national and international commitments on gender equality and women’s empowerment by ensuring that voices of women and human rights-based approach is integrated fully in the development agenda of the country.

UN Women launched its programme in Pakistan in 2007 following a request by the Government of Pakistan and the United Nations is now strategically positioned in this regard at both the national and provincial levels. In moving towards realization of gender equality and women’s empowerment, UN Women provides support to innovative initiatives that promote women’s human rights, with a special focus on their economic security, governance/political participation, freedom from violence, as well as preparedness and responding to humanitarian crises.

UN Women Pakistan’s **Women’s Economic Empowerment (WEE) Programme** has been supporting the implementation of national commitments and international frameworks around economic opportunities for women since 2007, and in particular supporting the development of provincial homebased workers’ policies and laws to improve the working conditions of the many rural and urban women in Pakistan undertaking informal homebased work.

UN Women’s main objective in the WEE area is to empower women to fully participate in economic life across all sectors and at all levels of economic activity so that they have better chances to earn higher incomes, have increased access and control over resources and have

greater security and protection from violence. The WEE programme interventions are aligned with UN Women’s global strategic plan results and focus on economic empowerment of excluded women groups in the country.

To reaffirm its commitment to Gender Equality, Gender mainstreaming and supporting the relevant public stakeholders to develop gender analysis tools, capacity building of the partners and stakeholders has been a prominent component of its work. Placing women’s rights at the centre of all its efforts, UN Women is working closely with national and provincial women machineries, especially Social Welfare Departments to develop their capacities in initiating, promoting and implementing pro-women policies, legislation and services.
